skin test and a
\$300 Gift Card
with your first
ArteFill treatment.*

Offer Expires September 30, 2008.

Finally, A Wrinkle Filler That Stands The Test Of Time

Actual patient

Actual patient

ArteFill is different.

Where the results of temporary fillers end, the enduring benefits of ArteFill continue.

If you have previously used temporary dermal fillers such as Restylane®, Juvederm™ and Radiesse®, then you know they are eventually absorbed by the body and require frequent repeat injections to maintain correction.

With ArteFill, you can now get the lasting wrinkle correction you want in just one or two treatments. The unique microspheres in ArteFill are not absorbed by the body and provide the enduring support your skin needs for long-lasting wrinkle correction.

Complete program details are available through this participating physician's office. Not available in Minnesota or Rhode Island. For complete product and safety information visit artefill.com.
